Opis produktu

Higrometr Bresser z alarmem pleśniowym, biały Digital hygrometer for measuring room humidity in percent Afraid of mold? The Bresser hygrometer with mold alarm warns of possible mold in your home. Create a healthy and safe indoor climate for yourself and your family! The indoor humidity and temperature are displayed with large digits. In addition, the humidity of the last 24 hours is clearly displayed in a diagram classified not only in percent, but also figuratively via a classification into 5 zones (TOO WET, WET, COMFORT, DRY or TOO DRY). The mold alarm reminds you of the need to ventilate regularly and as a consequence to avoid mold. Features: Digital hygrometer for measuring room humidity in percent Indoor temperature display in °C or °F percent Alarm in the case of mold growth Alarm function for lowest and highest air humidity value can be changed Room climate indicator is divided into 5 zones (TOO WET, WET, COMFORT, DRY, TOO DRY) Touch control panel Battery operated (2 x AAA - not included) The kit includes: Digital hygrometer Removable stand User manual Dane techniczne: Zastosowanie: pomiar temperatury Typ: termometr, higrometr Konstrukcja: cyfrowa, stołowa Zasilanie: 2x AAA (Micro), 1.5V (nieuwzględnione) Barwa: biały Korpus: tworzywo sztuczne Wymiary: 85x35x110 mm Masa (z akcesoriami): 98 g
